

# TIVA

## INLINE HIGH FLOW REPLACEMENT WATER FILTER CARTRIDGE

### TIVHIR

The TIVA TIVHIR is a replacement cartridge for the TIVA TIVHI System & is designed specifically for applications with high sediment and harsh water quality, such as rural supplies, areas with older pipe infrastructure and rainwater. With 4 levels of filtration, the TIVHI filters out sediment, rust and dirt down to 1 micron. It improves bad taste, odour, chlorine and other chemicals, leaving great tasting, clean and pure water.

### FEATURES

- Ionic silver-based antimicrobial carbon filtration media.
- DIY Quick-twist hygienic cartridge changes.
- Reduces streaking on glassware.
- Sediment, dirt, rust and other particles filtered down to 1 micron including Giardia and Cryptosporidium cysts.
- Taste, odour, chlorine and other chemicals are absorbed by the granular activated carbon technology.
- Scale and lime deposits are inhibited reducing build-up in appliances.
- Lead reduction.
- Doesn't remove essential minerals or fluoride.

### SPECIFICATION

The quick-change cartridge can be easily replaced — just like changing a light bulb. It also incorporates long life filter technology, so you can go longer between filter replacements.

### FILTRATION TECHNOLOGY

**STAGE 1:** Removes particles down to 5 microns, clarifies the water and removes sediment, rust, sand, silt & algae.

**STAGE 2:** Chlorine and chloramine reduction, eliminates bad taste and odours and chemical pesticides & sulphur reduction.

**STAGE 3:** Anti-scaling protection, corrosion control and protection against hardness i.e. calcium & magnesium

**STAGE 4:** Final filtration down to 1 micron and fine sediment particle removal.

**SUITS:** TIVHI  
**MIN/MAX FLOW (LPM):** 0–8  
**MIN/MAX TEMPERATURE (°C):** 0–38 (protect from freezing)  
**MIN/MAX PRESSURE (KPA):** 100–520  
**MICRON RATING:** 1 micron (nominal)  
**CAPACITY (L):** 37,500  
**CARTRIDGE SIZE:** 12"
